

VALLEY PROTEINS, INC.

Coast-to-Coast FOG Recycling

Valley Proteins, Inc. provides an easy, no-hassle solution to managing your grease recycling needs at multiple locations. Through our nationwide partnership with qualified third-party service providers, we simplify the process of finding reliable, properly-permitted and insured resources that can deliver on all of your grease service requests.

Our national FOG recycling plan offers you superior service management for all of your used cooking oil recycling, grease trap management and compliance requirements.

When you partner with Valley Proteins, Inc., our service representatives develop detailed knowledge of your operations and service needs. This allows us to resolve any problems that may arise with a simple call or e-mail. Having a single contact provides piece of mind for all your locations.

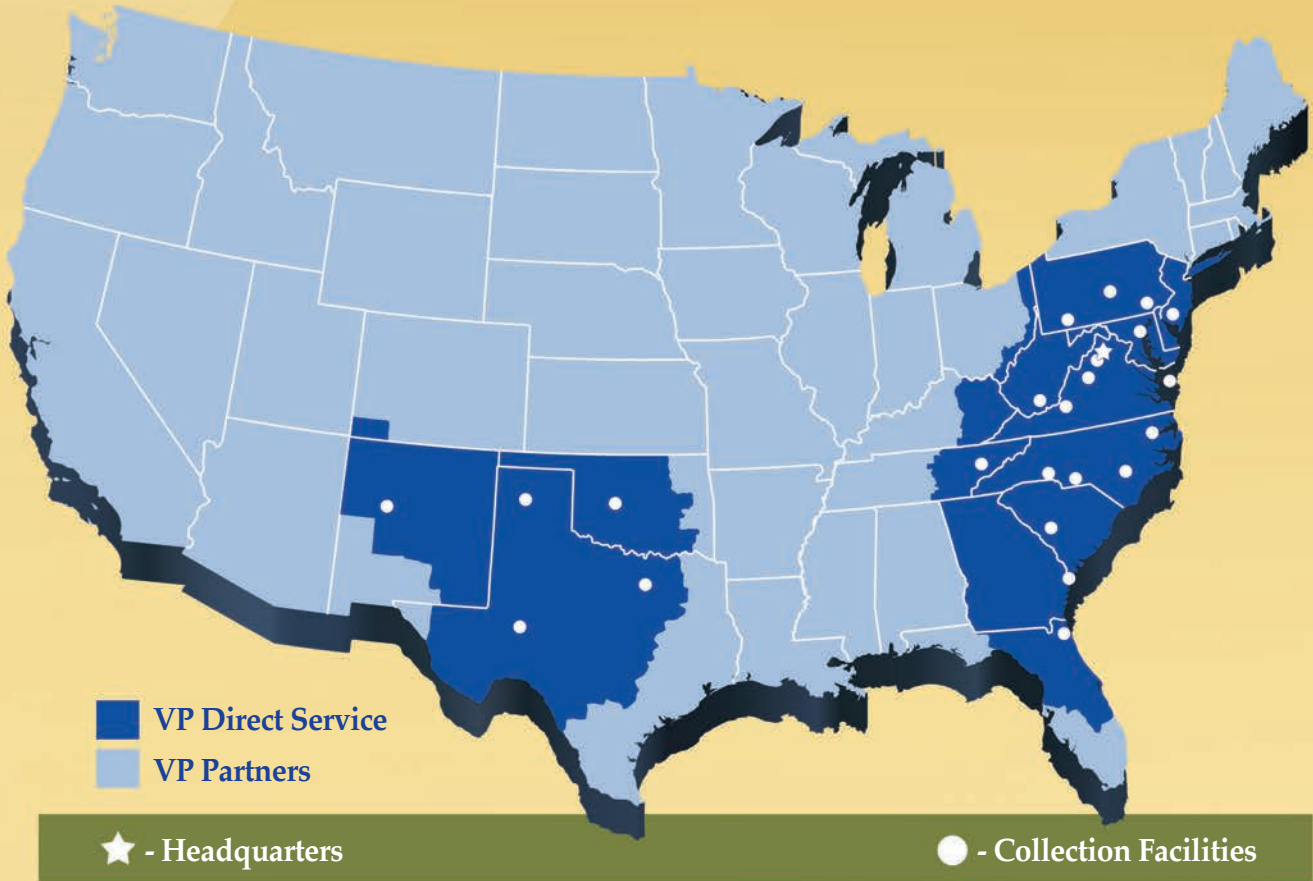

Our national FOG recycling plan features:

- 24/7 availability with a toll-free customer service number
- Quick issue resolution through our friendly VPCare Team
- Consolidated, detailed invoices in electronic or paper format for all your locations
- Easy-to-use web-based access that allows you to view past, current and future service schedules
- Retrieval of your service history documents, anytime
- Guaranteed compliance for all regulation requirements
- Volume discounts with combined services

Coast-to-Coast Service Platform

Valley Proteins, Inc. provides *direct* services within the mid-Atlantic, eastern and southwest regions of the United States. Our partnerships with qualified third-party service providers allow us to cover the rest of the U.S. and Canada.

Valley Proteins, Inc. is your single-source for complete and reliable coast-to-coast grease management services.

Contact us to discuss your FOG recycling needs.
