

Dear Valued Customer,

Valley Proteins recycles used cooking oil for use in the production of animal feeds, industrial products, and Biodiesel in the US and in the rest of world.

The International Sustainable and Carbon Certification System (“ISCC”) certifies Valley Proteins recycled used cooking oil comports with the sustainability criteria of the European Directive on renewable energy (209/28/CE) and ISCC EU.

ISCC’s certification affirms Valley Proteins’ commitment to renewable energy. In accordance with the ISCC certification process, Valley Proteins is required to request an ISCC Self-Declaration from each of our customers. The Self-Declaration confirms the used cooking oil picked up from your facility is:

- 1) Entirely of used cooking oil and is not mixed with fresh oil
- 2) The cooking oil is entirely of vegetable origin
- 3) Documentation of quantities delivered is available
- 4) Applicable national legislation regarding waste prevention and management (e.g., transport, supervision etc.) are complied with.

By this letter, we ask that you sign and date the attached ISCC Self-Declaration and return it by email to [ISCC@valleyproteins.com](mailto:ISCC@valleyproteins.com).

This Self-Declaration is considered an agreement for UCO pickups between parties, and will be deemed as accepted for all deliveries since January 1, 2017 if the customer does not explain its objection to Valley Proteins within 14 days of receipt of this notice. If you do not agree to the Self-Declaration, you must notify Valley Proteins by email to [ISCCnonparticipation@valleyproteins.com](mailto:ISCCnonparticipation@valleyproteins.com) within 14 days. If you do not notify Valley Proteins it will be presumed by Valley Proteins that you have no objections to the contents of the Self-Declaration and that the used cooking oil presented by you for collection by Valley Proteins is used cooking oil made up of vegetable fats and oils that have been used for frying food for human consumption and their use has been within the normal range of your business practices.

Valley Proteins appreciates your business and we look forward to working with you towards a greener planet.

Sincerely,

James Katsias  
Director of Procurement
