

Self-Declaration

The waste or residue is derived exclusively from biomass in the Biomass Regulation. The waste or residue does NOT originate from Farming, Forestry, Fisheries or Aqua Culture. The material supplied is waste cooking oil made up of vegetable fats and oils that have been used for frying of foods for human consumption and their use has been within the normal range of business protocols. Any contamination with animal oils and fats are not done on purpose. The principals of waste minimization are observed. The expiry date of the waste or residual material was not exceeded. The waste or residual material has not been mixed at any time with other biomass sources. With this self-declaration, the waste origination point acknowledges that auditors from certification bodies (may be accompanied by inspectors from authorities with the purpose to evaluate the performance of the certification body) and staff of certification schemes can examine whether the requirements are met as stated in this self-declaration. The relevant right to this inspection is herewith granted. The self-declaration as such or as part of this contract for the supply of waste or residues has validity for the terms of this contract.
